

Central MS Light Flyers

Harrell Field

SAFETY RULES

Zero Tolerance (recommendation for dismissal subject to club vote)

- To carry a passenger, you must have a pilot's license (or CFI, BFI), a current medical, & an FAA airworthiness certificate in the plane you are flying -- per FAA regulations and federal law.
- No alcoholic beverages allowed.

Written Warning (issue written warning, no additional action is required)

- 500ft minimum altitude over people or hangars.
- No aerobatics or "Hot Dogging" in pattern or over the field.

Recommended Behavior (club members should emphasize compliance)

- **Before takeoff:**
 1. Always preflight your airplane.
 2. Clear Prop before starting engine.
 3. Check for traffic before taxi & before takeoff.
 4. Don't leave your airplane unattended with engine running.
- **Traffic pattern:**
 1. Pattern altitude is 600 feet AGL.
 2. Observe left hand traffic pattern.
 3. Enter traffic pattern under standard FAA rules.
 4. Non-powered aircraft always have the right-of-way.
 5. CTAF frequency is 122.9 mhz.
